

Center of Excellence

A classroom which is B316 is located in building B of the Institute of Technology of Cambodia (ITC). The area of this room is about 70m2. This room was used as a laboratory for the control automation system and a teaching room. The room is prepared and named to be a Center for Excellence (CE) room that has installed some materials such as computers under the Erasmus project. Currently, there are 8 existing PLC panels located at the backside and a VFD control panel is at the left side of the room. From the project, eight desktop computers and one set of PLC panels will be set up inside the room.
