Survey

In order to investigate the knowledge and level in ICT field of the students, lecturers and medical profession. We have made the survey by using Moodle Platform before starting the training by EU teacher on July 2021.

The survey has been made to investigate about the hospital information system, the UHS team has been made the onsite survey by going to the Savannakhet Hospital on 22 February 2021. By this opportunity we have the meeting with seputy director of hospital and team for exchanging information on this topic which is the important issue for both sides.
